Welcome To Chicago Computer Coach!

We know the computer may intimidate you while its benefits go unused. Just turning it on sometimes can be a challenge. Looking at those little boxes and menus in that fancy unknown jargon. Choosing what to use is like deciding what flavor ice cream to pick for dessert.

But you landed at the right spot if you need someone to hold your hand and teach you some of the available programs you have been longing to learn. We work strictly at your pace through our program of custom tutoring and coaching service! We provide service at your home, office or remotely via an Internet sharing connection.

Your needs will always come first in our priorities. We listen to you and help you reach your goals and fulfill your dreams. We aim to be friendly and approachable and are here to serve you as well as answer any questions you may have. Our patience and understanding are key to your success!

We believe our rates are affordable. They range from \$25.00 to \$40.00 per hour. Travel time and auto expenses are added.
